Addition exercises

Fill in the figure that makes the equation balanced

1)	$4 + 5 = 3 + \square$
----	-----------------------

2)	$7 + 5 = 8 + \square$
----	-----------------------

3)	$\square + 5 = 8 + 2$
----	-----------------------

4)	$\square + 10 = 12 + 2$
----	-------------------------

5)	$\square + 16 = 12 + 8$
----	-------------------------

6)	$10 + 5 = 9 + \square$
----	------------------------

7)	$20 + 5 = \square + 11$
----	-------------------------

Answers

1)	$4 + 5 = 3 + \boxed{6}$
----	-------------------------

2)	$7 + 5 = 8 + \boxed{4}$
----	-------------------------

3)	$\boxed{5} + 5 = 8 + 2$
----	-------------------------

4)	$\boxed{4} + 10 = 12 + 2$
----	---------------------------

5)	$\boxed{4} + 16 = 12 + 8$
----	---------------------------

6)	$10 + 5 = 9 + \boxed{6}$
----	--------------------------

7)	$20 + 5 = \boxed{14} + 11$
----	----------------------------
